

James (Jim) Allen
Water Efficiency Division Manager
Sloan Valve Company

Jim Allen is the Water Efficiency Division manager for Sloan Valve Company. His responsibilities include new product development, marketing and sales. Before serving as division manager, Allen worked as a project manager, performing water-related retrofits for government facilities on the East Coast. He is a member of the Emerging Green Builders sub-committee of the United States Green Building Council. He is a LEED[®]-accredited professional and has authored several articles on the topic of water efficiency.

Allen regularly speaks to groups regarding LEED and strategies for achieving sustainability with water-efficient plumbing systems. He recently appeared as a guest speaker at the Green Building & Energy Conservation Conference in Hangzhou, China, and will speak at the Greenbuild 2007 show in Chicago in November. He also accepted the U.S. Environmental Protection Agency's Green Power Purchaser Award on behalf of Sloan for the company's purchase of clean, renewable energy credits that offset 100% of its electricity use at its Franklin Park, Ill., headquarters and manufacturing facility.
