

Energizer.

Energizer® offers the only ENERGY STAR® qualified NiMH rechargeable battery chargers.

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

ENERGY STAR is a label awarded for energy efficiency. It is a partnership among government, business and consumers, united in the pursuit of a common goal - to protect our environment for future generations.

To be eligible for ENERGY STAR qualification, a battery charging system must not exceed a maximum *Nonactive Energy Ratio*, which is defined by the energy consumed by the battery charger in battery maintenance and standby modes of operation over a defined period.

Energizer premium chargers have been awarded the ENERGY STAR label by surpassing government requirements. Energizer is the only battery supplier awarded with this label on premium NiMH chargers.

Energizer® Family Charger

Energizer® 15-Minute Charger

Energizer® Compact Charger

Energizer® Easy Charger
