

Power Solutions for the Home & Family

Energizer offers a number of power solutions from batteries to chargers that give busy families the power they need, when they need it.

Energizer® MAX® alkaline batteries deliver dependable, powerful performance for everyday devices like remote controls, clocks and smoke detectors.

Whether it be new **Energizer® Advanced Lithium** or **Energizer® Ultimate Lithium**, Energizer has a power solution for the high-tech gadgets that consumers use every day.

Energizer® Rechargeable® NiMH batteries are a reusable power solution for families who need more power, more often for their frequently-used devices. Energizer has a variety of ENERGY STAR certified chargers with unique features, so there's one that's

right for every family.
