

## Power and Lighting Solutions for the Job Site

Energizer offers rugged and cutting edge power and lighting solutions that are ideal for any situation on the job.

Energizer Battery, Inc. is partnering with **e-Coupled** to deliver advanced wireless power product solutions in portable commercial lighting. Together the companies are introducing a new rechargeable swivel head flashlight that charges through e-Coupled wireless power.

The contractor-grade flashlight works in tandem with the Leggett e-Coupled in-vehicle wireless console charger to give professionals a light that's always charging and always ready.

From spotlights to inspection lights to headlights, the **Energizer® Hard Case® Professional®** line offers “The Toughest Flashlight You’ll Ever Need™.”

- **Energizer® Hard Case® Professional® Headlight** allows for directional hands-free work while delivering bright, even light. Multiple color LEDs (white, red, and green) facilitate inspection work.
- **Energizer® Hard Case® Professional® Inspection Light** is bright, compact, and designed not to roll when set on a flat surface.
- **Energizer® Hard Case® Professional® 4 LED Swivel Light** swivels up to 125° for direct overhead use or work table lighting. Multiple color LEDs (white, red and green) facilitate inspection work.
