

Light and Power Solutions for Outdoor Enthusiasts

Having the right light and the right power sources is essential for outdoor adventures. Whether the plan is to spend a day at the park or a weeklong climb to the summit, Energizer offers a variety of lighting and power solutions that are ideal for outdoor use.

Energizer® Night Strike™ lights were designed with the help of outdoor and hunting experts as well as consumers to meet the specific lighting needs of outdoor enthusiasts. Models include a LED handheld flashlight, handheld swivel LED flashlight, and a multifunction compact LED light.

Lightweight construction and excellent performance in extreme temperatures – from -40° F to 140° F (-40° C to 60° C) – make **Energizer® Ultimate Lithium** batteries ideal for use in high-drain outdoor devices such as handheld GPS units, which last up to 7X longer* with **Energizer® Ultimate Lithium**

Utilizing the latest in solar technology, the **Energizer® Rechargeable® Solar Charger** is an ideal hybrid power solution that offers consumers a solar charging solution for outdoor adventures.

*vs. Energizer® MAX®. AA only. Results vary by device.
