

## Ronald L. Schefdore, DMD General Dentist Published Author

Dr. Schefdore was one of the first licensed general dentists to create the 1 Day "**SMILE MAKEOVER**" 26 years ago when the materials were first invented. The materials and technologies have improved and I still love the excitement of creating great looking smiles!" We just did our 2500th cosmetic case.

Recently we coined the phrase **SUPREME MAKEOVER** and offer this Cinderella experience to our patients. First, 6 -14 teeth in your smile are recovered with porcelain or composite to improve the shape/length/color of the smile based on the desires of the patient. Next the hair stylist and makeup artist can help you with a new hair style and make-up /skin care for the improved total image if desired. We even have a clothes consultant that can help with any wardrobe. Just let us know that you are interested in this service.

**1979** - B.S. Biology with Honors Southern Illinois University

### General Dentistry

Even though we emphasize Cosmetic Dentistry, we are professionals in completing all general dental work quickly and accurately. This greatly reduces time away from work and your busy lifestyle. We offer just about any dental work you can think of "in-house". Only in extreme cases do we need to refer you to specialists outside of our office.

Ask about our new modern technology such as our **LASER CAVITY DETECTOR**, **HALIMETER** for bad breath or our **COMPUTER CONTROLLED INJECTION** for your comfort.
