

Energizer[®] Energi To Go[®] Rechargeable Power Packs

Energizer[®] Energi To Go[®] is a line of rechargeable power packs that offers backup power to today's portable electronic devices. *Energizer Energi To Go* rechargeable power packs are an extension of the *Energizer Energi To Go* brand, which features *Energizer[®] Energi To Go[®] Portable Power for Cell Phones*.

In July 2009, Energizer will add more than 10 new product SKUs to the line through a new partnership with XPAL Power. The new Energi To Go[®] XP, SP and AP models will use lithium polymer battery technology, a moldable battery form that can be recharged and reused hundreds of times, to provide backup battery power on-the-go for a variety of electronic devices ranging from smart phones and the iPhone[®] to netbooks and laptops.

The product offerings include:

- *Energizer[®] Energi To Go[®] XP* line of portable power systems includes seven models designed to power up to three devices at once including cell and smart phones, MP3 players, GPS units, Bluetooth[®], portable DVDs, digital cameras and camcorder batteries, netbooks, and laptops.
- *Energizer[®] Energi To Go[®] AP Charger for iPhone[®]*, two sleek new portable power cases made to give extra power for use with the high-drain Apple iPhone[®] 3G, anytime, anywhere. Using moldable lithium polymer battery cells designed to mimic the shape and styling of the iPhone, these models give iPhone users up to double the life of the battery.
- *Energizer[®] Energi To Go[®] SP*, a line of portable solar-driven power packs with models designed to power up cell and smart phones, iPods and MP3 players, GPS units, Bluetooth[®], and digital cameras.

Product Services and Guarantees

Energizer /XPAL offers a variety of services to ensure that the new Energi To Go[®] XP, SP and AP products meet consumers changing needs:

- **TipFit Guarantee** - If a specific tip is not included with the product, Energizer/XPAL guarantees to find it
- **Tips for Life** - Consumers can register their product online and get two free tips a year for the life of the product
- **Born Date & Battery Cell Activation** - All products are guaranteed to hold a charge for one year past the date it was activated
- **Free Battery Check** - Each charger has an online diagnostic that can check remaining charge cycles and more so consumers know how much power is left in their device
