

JOIN THE PROFESSIONAL HEALTHCARE TEAM

JOHN, we appreciate your interest in a medical assisting career and commend you on an excellent choice.

Medical assistants work closely with doctors, nurses and other personnel, performing a variety of important clinical and administrative functions:

- Maintain examining room procedures
- Obtain vital signs and medical histories
- Conduct routine laboratory procedures
- Sterilize and maintain equipment
- Administer medications as directed by the physician

Choose from traditional or online classes.

The following programs are available online. Learn more about online classes and how you can mix and match traditional and online classes when you visit the College.

WHAT STUDENTS SAY ABOUT VIRGINIA COLLEGE AT BIRMINGHAM:

"I didn't think that I could balance my job, family, and school. Virginia College worked with my schedule by getting me on the right track." Shadrian H.

Be in Demand!

Demand for Medical Assistants is expected to grow by 52% between 2004 and 2014, four times the national average.*

"Virginia College definitely changed my life. If I didn't come to Virginia College, I would still be making eight dollars an hour and not enjoying my career. Now that I have graduated, I work in a doctor's office making more money and I love what I do." Jennifer H.

"It is really exciting for me to be in the operating room right in the middle of the fast-paced action. Virginia College helped me to do that." Alyssa A.
