

Energizer® Solar Lighting Products

The new line of *Energizer®* Solar Lights offers convenience and portability to fit every lifestyle. Outdoor enthusiasts will especially enjoy the great run-time and versatility that comes with hybrid power solutions. Charging options include solar panels, crank, primary batteries and car adapters, making these lights flexible enough for just about any outdoor situation.

Energizer® Solar Folding Lantern

- Uses latest solar technology (amorphous silicon) to charge even in low light, such as early morning, late afternoon and overcast days
- Hybrid power options – solar charge or power by three D-size alkaline batteries
- Powerful enough to light a room or campsite with eight LEDs providing up to 60 lumens of light output
- Choose bright area light or an amber nightlight setting
- Light folds out for 360° area light and returns to a compact position for convenient storage
- Solar panel folds out to maximize sun exposure for charging
- Five hours of charging in the sun provides 2.5 hours of run-time
- Three D Alkaline batteries provide 160 hours of run-time
- MSRP: \$39.99

Energizer® Solar Spot Light

- Hybrid power options – solar panel or 12 volt DC car adaptor
- Floating design makes this light ideal for outdoor and water activities
- Delivers a large, bright spot through four LEDs generating 24 lumens
- Five hours of charging in the sun provides three hours of run-time
- Charging through car adapter provides up to six hours of run-time
- MSRP: \$39.99

Energizer® Solar Crank

- Uses latest solar technology (amorphous silicon) to charge even in low light, such as early morning, late afternoon and overcast days
- Hybrid power options – solar panel or crank power
- Lifetime LEDs and rechargeable battery pack deliver a long-lasting lighting solution
- Integrated carabineer clip easily attaches to backpacks and travel gear, making it possible to charge on-the-go
- Five hours of charging in the sun provides 2.5 hours of run-time
- Crank charging for one-minute provides nine minutes of run-time
- MSRP: \$19.99
