

## **Energizer® Wireless Charging Pad**

The future of wireless charging has arrived with the launch of the Energizer Wireless Charging Pad, designed for future compatibility with the new universal Qi standard being developed by the Wireless Power Consortium. Consumers will now have the freedom to charge all Qi compatible devices on a single charging station, regardless of brand.

The new Energizer Wireless Charging Pad designed in cooperation with Wireless Power Consortium co-founder, ConvenientPower:

- Delivers easy, convenient wireless charging for all Qi-enabled devices 5 watts and below, such as phones, cameras and remote controls
- Will eliminate the need for wires and incompatible wireless charging stations
- Offers two large wireless charging areas with one additional USB charging port
- Features a sleek, slim and rounded rectangle design with two LED charge indicators
- Does not contain magnets for alignment and is safe for magnetic cards such as credit cards;
- Provides freedom of placement within the two large wireless charging areas
- Energizer will also offer two adapters that will charge the Apple Iphone and Blackberry devices
- Available July 2010
- MSRP: \$100
