

Since Dr. Keith Randolph joined Nutrilite in January 2000, he has been responsible for the oversight of a team of 16 clinical and nutrition scientists, formulators, engineers and technicians focused on developing functional products for the nutrition and wellness product line of Nutrilite.

Randolph has 17 years of combined experience in research and development as a biochemist at the State College of New York, Stony Brook in Stony Brook, New York, the Medical College of Pennsylvania in Philadelphia, Pennsylvania, and the Cleveland Clinic Research Foundation in Cleveland, Ohio. He has published original research in the areas of lipid biochemistry, metabolism, nutrient-gene interactions, cardiovascular disease and skin physiology.

Randolph is a fellow of the American College of Nutrition. He holds memberships in the American Society for Nutritional Sciences, American Chemical Society, American Society for Molecular Biology and Biochemistry, and the Association of Analytical Communities.

Randolph earned a Bachelor of Science degree in chemistry and biology from Wayland College in Plainview, Texas, and a Doctor of Philosophy degree in experimental pathology from the Bowman Gray School of Medicine at Wake Forest University in Winston-Salem, North Carolina
